

107 年度 國外教授來訪學術演講「Equivalent Static Wind Load Approach based on Proper Skin Modes」演講

時間：2018-08-01
地點：工學大樓 E801A

Dr. Luca Patruno is currently an Assistant Professor in the Department of Civil, Chemical, Environmental, and Materials Engineering at University of Bologna in Italy. He is also a visiting research fellow funded by Joint Research Program of Emerging Scholars of Wind Engineering Research Center at Tamkang University.

He has several frequently-cited publications in wind engineering field and rich experience in working with design consulting groups for structural analysis of various structures. Recently, he reaches his branches to computational fluid dynamics and has developed many interfaces based on Python language.
